Profile Summary

Experienced web developer and software programmer with expertise in designing and implementing MVPs, APIs, and software automation. Skilled in data analysis, problem-solving, and process optimization using modern technologies such as Docker, n8n, Plasmic, Python, and Git. Committed to continuous learning and staying current with technical knowledge. Passionate about creating efficient, user-friendly applications to enhance user experience and organizational productivity.

Education

Bachelor of Computer Engineering

Islamic Azad University of Ilam

2024 - Present

Projects

- Developed websites using Plasmic, n8n, and ready-made components, deployed with Docker and custom domains.
- Created webhook APIs for various applications.
- Built Telegram bots integrated with AI via APIs.
- Performed web scraping of Saham To site for extracting coinmap data and storing in databases.
- Crafted optimized AI prompts for web implementation.
- Conducted software debugging and performance optimization.

Technical Skills

- Automation: n8n (API workflows)
- Web Development: Plasmic, HTML, CSS

- Programming: Python, JavaScript, C++ (basic)
- Databases: Python-based DB handling, Web scraping
- Version Control: Git, GitHub
- DevOps: Docker, Network fundamentals
- AI & NLP: Prompt engineering
- Data Formats: JSON, XML
- Debugging & Testing: Software optimization and bug fixing
- Office Tools: PowerPoint, Word, Excel
- Google Tools: Google Sheets, Google Cloud
- Frontend: React (basic knowledge)

Certificates & Courses

- Branding Certification, Science and Technology Park of Ilam University (IASP), Nov 2024
- Entrepreneurship & Artificial Intelligence Course, Aland Software & Training Team, 2024
- Git Certification, Computer Engineering Scientific Association, Ilam University, Jun 2024
- Financing Methods for Tech & Knowledge-Based Businesses, IASP, Nov 2024
- Python Programming Course, Hamrah Aval Academy, Feb 2025

Languages

English

- Reading: Proficient
- Writing: Proficient
- Listening: Proficient
- Speaking: Intermediate

Certificate: Four Corners

Analytical & Strategic Skills

- Persona, Context, and Problem Analysis
- Business Plan Development (BP)
- Customer Needs Assessment (Maslow, Glasser Theories)
- Understanding Explicit & Implicit Interactions

Problem-Solving & Innovation

- Design Thinking
- Independent Thinking
- Systemic Thinking
- Critical Thinking
- Familiar with SCAMPER & McKinsey Problem Solving Methods

Communication & Soft Skills

- Teamwork
- Time Management
- Quick Learning
- Attention to Detail
- Stress Management & Flexibility
- Creativity
- Documentation Skills
